

# TRAVEL SAFETY AND SECURITY

## TWELVE YEARS' EXPERIENCE SAFEGUARDING THE AIMS OF OUR CLIENTS

Horus-Global is a complete service offering a safety net for foreign students, tourists and backpackers who are studying in another country or travelling overseas:

- Information-based travel app on your smart phone
- Travel information, latest news and early warning
- Live monitoring and 'be safe check in'
- Emergency procedures, advice or just a helping hand

You can sign-up for the service at any stage, however, it would be best to do this before you travel so that you can be best informed from the day of your departure:

- You will receive 'messages' via the app for the area that you designate as being of interest
- Your family can monitor your progress based on the settings that you make
- Request the 'watch me closely' monitoring and get help if you need it
- Request assistance by calling, texting or messaging the Fusion Centre at any time
- Request the 'guardian service' when you need help in an unfamiliar situation:
  - 'Meet and greet' when you arrive and assistance with onward travel
  - Be accompanied when attending hospital or medical appointments
  - Have someone else there when negotiating with estate agents and so on
- Turn on/off whenever you wish
- Call the local emergency services - Police-Fire-Medical - if things go really wrong

### The Horus Difference

- **Quality Team:** A unique blend of Academics, Specialist Law Enforcement, Military, Intelligence and Security experience
- **Technology:** The Horus-I Travel App is an unrivalled open source research capability
- **Legal Approach:** All Horus activity is fully compliant with current global legislation and is auditable and fully disclosable

*Horus products are uniquely and individually tailored to the needs of our clients*
